

PROFILE

I moved to Switzerland to build my career in an international environment and achieve meaningful results. I'm a Business Analytics MSc student at the University of Geneva with a background in Business Administration and Market Research. I have a strong interest in AI, business performance and data-driven decision-making, with experience using Excel, Power BI and PowerPoint to support reporting and analysis.

WORK EXPERIENCE

VOLTA CIRCLE | Business Analyst Intern

04/2026 - 06/2026

- Supported business analysis, reporting and market research activities using Excel, Power BI and PowerPoint.
- Consolidated business data to support recurring analyses, internal reporting and stakeholder presentations.
- Created Power BI dashboards, Excel trackers and PowerPoint materials to summarize insights and support decisions.

STYLE 'N TRAVEL S.R.L | Data & Marketing Analytics Intern

03/2025 - 06/2025

- Analyzed web traffic and user behavior data to support business performance tracking and reporting.
- Extracted quantitative insights from digital data to improve commercial analysis and support data-driven decisions.

SUPERPROF | Business Studies & Accounting Tutor

06/2022 - PRESENT

- Tutored 50+ students in accounting, finance and business concepts, strengthening communication and analytical explanation skills.

GALATEO RICEVIMENTI | Event Waiter & Client Support

12/2018 - 03/2025

- Supported operations and client relations during high-end corporate events for international luxury brands.

CANTINE PELLEGRINO | Accounting Intern

05/2017 - 08/2017

- Assisted accounting with data entry and financial workflows, gaining early exposure to financial and business processes.

RELEVANT PROJECTS

Machine Learning Project - Multi-Horizon Forecasting

10/2025 - 12/2025

- Built and compared predictive models to forecast temperature at 12h, 24h and 48h horizons using Swiss meteorological data.
- Applied preprocessing, feature engineering and cross-validation; selected boosting-based models as best-performing solution.

Data Analysis & Quantitative Market Research

09/2023 - 12/2023

- Analyzed 503 survey responses and 2,017 product reviews in collaboration with Fater, using quantitative and sentiment analysis to identify consumer insights.
